

Your Partner for Everyday Health and Lasting Wellness

At GetWell Urgent Care, we are committed to providing fast, convenient, and compassionate healthcare for individuals and families throughout our communities. Whether you need treatment for a sudden illness, a minor injury, or preventive healthcare services, our experienced team is here to help you feel better and stay healthy. In addition to urgent care services, we specialize in evaluating and managing vein-related conditions, helping patients find relief from symptoms associated with poor circulation and other vascular concerns.

With convenient locations in Merced, Santa Clara, and San Jose, quality healthcare is always close to home.

Compassionate Care in Santa Clara

Our Santa Clara location is committed to delivering comprehensive, patient-centered healthcare in a welcoming environment. We provide urgent care services, preventive healthcare, chronic disease management, wellness exams, and specialized evaluations for vein-related conditions. Our experienced medical team treats a wide range of health concerns, including infections, minor injuries, chronic medical conditions, and circulation-related issues. Patients benefit from personalized treatment plans, on-site diagnostic services, minimal wait times, and compassionate care designed to support better health at every stage of life.

Our Services

Fast Relief for Sore Throat Symptoms

A sore throat can make everyday activities uncomfortable and may be caused by viral infections, strep throat, allergies, or other medical conditions. At GetWell Urgent Care, our experienced providers perform thorough evaluations to identify the cause of your symptoms and recommend the most appropriate treatment. We provide prompt, efficient, and comfortable care to help you recover quickly and get back to your daily routine.

Comprehensive Geriatric Exams

Routine geriatric exams play an important role in helping older adults maintain their health and independence. Our experienced providers perform comprehensive evaluations, review medications, monitor chronic conditions, and develop personalized care plans based on each patient's individual healthcare needs. We are committed to supporting healthy aging through preventive care and ongoing medical guidance.
